

Last Time Buy Notification - System 7S, SC

Dear Customer,

According to the Rocla policy for the life cycle of a product, the system 7S and 7SC components have reached the "discontinued" state. This means that components of this generation will no longer be manufactured after 2011.

The affected components include for example ACC70S and -SC carrier controllers and their circuit boards, OP7 operator terminals, BIV3 system I/O units etc. More detailed product information can be found from our status statement for System 7S and SC.

The parts will still be supported until the end of 2014 in terms of repair services and software support, but to maintain the usability of your AGV system, we recommend you to consider corresponding actions.

Last Order Date for SYS7S and SC products: 2011-12-15

Please assess your product needs and place a last time buy order no later than the last order date stated above.

In order to ensure the long-term usability of your equipment it would also be beneficial to consider to update your system with the latest technology

Example solutions for ensuring long-term usability of your equipment:

- Service agreement including extended spare part support.
- Service agreement including modernization.
- Modernization as an investment.
