The intelligent way to move

Satel radio modem availabilities

Dear Customer,

According to the Rocla policy for the life cycle of products, the Satel 2AS radio modems will reach the "discontinued" state at the end of 2014. This means that they will no longer be manufactured. Last orders for the units can be taken in the end of November 2014.

2AS modems will reach "End-Of-Life" in approximately 4-5 years after which we can no longer guarantee repairs or support for them. Older 1AS models have already reached End-Of-Life status.

In order to ensure the long-term usability of your system it would be beneficial to consider updating your system with the latest technology.

Please consult our staff for further details and options.
